

November Pastors Corner

Greetings to all in the name of Christ,
From the rich traditions of our Apostles Creed, and many prayers that have been handed down through the ages I have come to find new approaches to affirmations and prayers. This is not to take anything away from Tradition but allows us to recognize that God's Spirit is always leading us to something new, good, and exciting.

A New Lord's Prayer

by Gretta Vosper

Breath, love, hope, inspiration

– truth that sings forth from within even as I am enveloped with its challenge, borne to my heart from the uncharted boundaries of that which transcends me, May these harmonies speak to us of the beauty for which we long, the unremembered perfection whence we were born and call us to offer ourselves as vessels for their hallowed music, pouring truth into the crevasses of despair in our world.

May we walk with courage in places of hurt, anger, fear, and isolation, with love, the standard we bear, holding us to our own truths and sparing us the tragedy of the petty remark, the regrettable action, the choices we know we'll regret.

And when we cannot hold to the challenges our love sets for us, may we find our way back to one another and in each other's eyes, find welcome, healing, and forgiveness.

Through the interweaving of our dreams, strengthened as they are with threads of beauty, goodness, and truth, the glory we may become is woven into reality.

May we ever offer our hearts to this essential devotion.

As light into light we pray,

Amen

Blessings to all,

Grace

And Peace,

Pastor Bob
